

Dear Judge Glenn :

I am a creditor of Celsius Network, writing to plead for assistant with my claim. I have not received my claim or my crypto and shares as of today 12th March 2024. I was given the retail claw back withdraw exposure settlement emails, and I signed the settlement agreement. I also communicated **my claim amount (~\$140k based on the official price list) was larger than the retail claw back settlement amount ~\$31k.** I requested to subtract my retail claw back settlement amount from the claim amount, and send me the remaining crypto and stocks.

Celsius bankruptcy take away a large amount of my life saving, I am currently out of job. Therefore do not have the extra money to pay for the retail claw back settlement, and requested to subtract settlement from my claim as mentioned above.

I have written nine emails to different Celsius teams (Stretto , Celsius Distribution, Celsius Litigation Admin... etc.), so far the issue was not resolved.

I am worried not able to get my remaining claim (crypto and stock), or they send me a check which is increase my loss since BTC/ETH increase substantially from they lock the price.

Therefore plead for assistant here, hope to get my crypto and stock as soon as possible.

Respectfully submitted,
Yue Chan
